

ROKKI ROGAN, CPDE

Founding Principal
LQ Group of Companies
Statewide

ABOUT ROKKI

Rokki is a Founding Principal of LQ; responsible for overseeing company operations in all markets, expanding the firms' footprint, and maximizing proficiencies for its commercial brokerage and property management arms.

As a Certified Distressed Property Expert® (CDPE), Rokki offers a unique background in sourcing distressed debt through an extensive banking network for the firms' Asset Recovery services.

Rokki has developed a strategic formula over 25 years of identifying attractive investments and applying thorough risk assessments, inside market intelligence, commanding negotiation tactics, and facilitating debt resources.

This powerful method consistently presents rapid off-market opportunities between CEO's and lending leaders for long-term profitability and stability.

By living in numbers, stocks, and lending rates, and through continuous networking with Florida's decision makers, Rokki continues to deliver on this "off-market" reputation.

An industrial, office, and retail landlord in his own right, Rokki thoroughly understands preserving client assets as if they are his own.

This further strengthens the LQ Commercial Property Management (now with millions under Management) and Asset Recovery service lines to always maintain an owner-mindset.
